OFFICE OF THE SECRETARY  
DOCKETING & SERVICE  
BRANCH

June 22, 1988

Secretary of the Commission  
Attn: Docketing & Service Branch  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Gentlemen:

I hope you can see your way clear to proceed with low-power testing of Seabrook in the very near future, by approving the rule making currently before you.

It is unfortunate that there are three politicians in Massachusetts that have gone all out to stop use of this plant. Not because of their knowledge of electricity, but for political reasons.

New England needs this electricity.

Sincerely,

*Joan Brunner*
