Dear Sirs,

I am writing to give my support to  
the Clarification of Emergency Planning  
Requirements for Low Power Licensing.

Please continue to advance with  
this needed rule change. Additional  
power is needed in New England as can  
be seen by the power consumption figures  
this early in the summer.

Seabrook Station is a safe and viable  
solution to our energy needs.

Sincerely yours

Dennis Weeks
