OFFICE OF THE SECRETARY
DOCKETING & SERVICE
BRANCH
JUN 23 P8:45

Secretary of the Commission
Attn: Docketing and Service Branch
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

I am writing to strongly urge the Commission to allow Seabrook Station to proceed with low power testing in the very near future.

It is obvious New England will desperately need added power soon. Seabrook is ready to supply this power reliably, safely, and efficiently. It makes sense to get Seabrook on line as soon as possible in order to assure New England adequate power for the future.

Sincerely,

Robert J. Fitts
