OFFICE OF PUBLIC AFFAIRS
DOCKETING & SERVICE
BRANCH

Secretary of the Commission
Attn: Docketing & Service Branch
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

This letter is being sent to you because I am in favor of the rule change that would allow for low-power testing of Seabrook without first having a full scale public notification system.

I believe in the safety of nuclear power and the benefits derived from this method of power production.

Sincerely
~~William F Monteith~~
