Secretary of the Commission
ATTN: Docketing and Service Branch
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Gentlemen:

There is no doubt that New England is going to need more power in the future, and Seabrook Station is the answer to that problem. Seabrook has had the advantage of seeing the weak points of other plants, allowing this plant to improve itself before any mishaps would ever happen. Safety is not the issue anymore - it is the ignorance of the Massachusetts politicians toward a safe investment in our energy future.

It would be a tragic mistake if what happened to Shoreham is allowed to happen here. All of New England, including Massachusetts, needs Seabrook Station.

SIENKIEWICZ
459 LAFAYETTE B-10
SEABROOK, NH 03874

Sincerely,
Felicia Sienkiewicz
