Re: Control Numbers 461443 and 461444

Dear Ms. Jackson:

The purpose of this letter is to apply for new material licenses. On March 1, 1986, Frontier Oil and Refining Company took over as sole owner of the Cheyenne, Wyoming refinery and its radioactive sealed sources. Therefore, Frontier Oil is applying for new licenses for these sources. Husky Oil Company, however, remains in business in Canada as a separate entity and has been notified to request termination of the current licenses: License No. 49-17942-01 and License No. 49-17942-02.

Enclosed is a check in the amount of \$230.00 for the new license fee. The attached information is submitted along with two (2) copies of each of the Applications for Material License (NRC Form 313).

Very truly yours,

Loren L. Pritzel
Refinery Manager
