Docket No. 50-293  
License No. DPR -35

Dear Sir:

In the past several weeks, our Nuclear Training Section has discussed termination of operator licenses with Ms. Virgil Curley of your office. Specifically, it was noted that Noel Olivier, Ivar Wentzel and Geoffrey VanEpps have each terminated employment with Boston Edison.

Mr. VanEpps, SOP10310, terminated employment on December 6, 1987. We have reviewed our records and found that no other license terminations have occurred since 10CFR50.74 became effective on May 26, 1987. For your records, Mr. Olivier, SOP3731, terminated on April 24, 1984 and Mr. Wentzel, OP5523, on January 24, 1987.

If you require further details concerning these matters, please do not hesitate to contact me.
