RE: Limerick Generating Station, Units 1 & 2
Docket Nos. 50-352 and 50-353

Dear Dr. Murley:

Enclosed for filing with the Commission is Amendment No. 90 to the License Application of Philadelphia Electric Company in the above-captioned matter. This Amendment revises the Final Safety Analysis Report (Revision 52) by making various editorial and clarifying changes, by making changes to accurately reflect the Limerick design, including modifications to the facility and by revising Table 1.7 and corresponding FSAR figures in response to the January 28, 1988 SALP Report. Revision 52 also serves to update the FSAR to assure the information in the FSAR for Limerick Unit 1 is current, as provided in Section 50.71 of the Commission's regulations.

This filing consists of an original and 10 copies of Amendment No. 90 to the License Application and 10 copies of Revision 52 to the Final Safety Analysis Report.

Very truly yours,

Eugene J. Bradley
