U.S. Nuclear Regulatory Commission
Region IV
611 Ryan Plaza Drive, Suite 1000
Arlington, Texas 76011

Attention: Mr. Chuck Cain

Dear Mr. Cain:

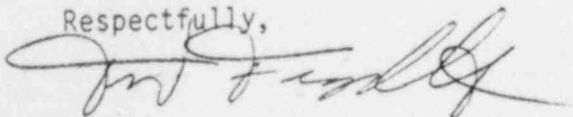

Enclosed please find Western Stress, Inc.'s Radioactive Materials License Application with attachments describing our radiological protection program.

As I mentioned during our telephone conversation, Western Stress, Inc. is currently conducting radiographic operations from three (3) of its fifteen district facilities under agreement program licenses, with a fourth to begin shortly. Approval of this application will permit initiation of operations at two of our facilities located in NRC jurisdiction. Each location equipped with permanent storage facilities is staffed with a qualified resident District Radiation Safety Officer and radiation safety records pertaining to operations conducted out of that location are maintained at that facility for inspection.

I believe that I have provided sufficient information to facilitate an evaluation of our proposed program, however, should you have any questions or require additional information, please feel free to contact me at the Corporate Headquarters in Houston, Texas at 1-800-222-1314.

I have enclosed our check in the amount of \$700.00 for the required application fee.

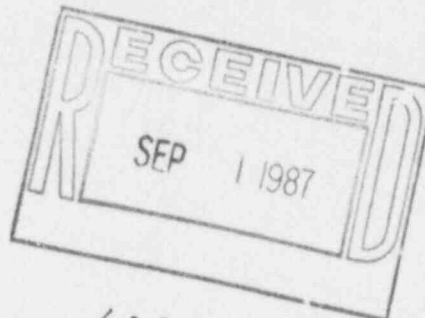

Respectfully,

Fred Frongillo, Jr.
Corporate Radiation Safety
Health Physics Director
