C. Randy HutchinsonVice President
Operations ANO

SUBJECT: Arkansas Nuclear One - Unit 1
Docket No. 50-313
License No. DPR-51
Application for License Re-Examination

Dear Mr. Merschoff:

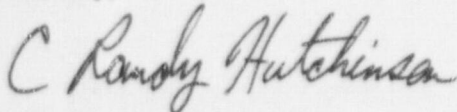

Enclosed is an application for license re-examination of Anthony Lee Morris. Mr. Morris failed the written portion of the examination administered on September 11, 1998. Since Mr. Morris passed the operating portion of his exam, we request that the operating portion of the re-examination be waived as discussed in the denial letter.

Mr. Morris has completed remedial training on the areas of identified weakness. We plan to administer the written re-examination the week of December 14, 1998 and will coordinate exam administration with Mr. Pellet of your staff.

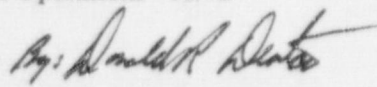

We require this license to meet the commitments in the Safety Analysis Reports for normal shift requirements, retraining, vacation relief, illness and unexpected job turnover. I certify that this individual has sound judgement, experience and training necessary to be a safe and competent operator.

Should you require further information regarding this request, please contact Gerald R. Giles at (501) 858-6844.

Sincerely,

C. Randy Hutchinson
