Gentlemen:

This refers to the inspection conducted by Mr. R. P. Mullikin of this office during the period February 22-26, 1988, of activities authorized by NRC Operating License DRP-40 for the Fort Calhoun Station, and to the discussion of our findings with Mr. L. T. Kusek and other members of your staff at the conclusion of the inspection.

The area inspected was penetration fire barriers. Within this area, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspector. The inspection findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. As discussed in the telephone conversation between Mr. Westerman with Mr. Andrews of your staff, we have scheduled an enforcement conference in our office at 9 a.m. on March 15, 1988, to discuss your understanding of this apparent violation, the reasons for occurrence, and your corrective actions. We will also discuss the enforcement policy, if appropriate. An agenda for this meeting is enclosed.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,
Original Signed By:
L. J. CALLAN
