Docket No. 50-440

Docket No. 50-441

The Cleveland Electric Illuminating
Company

ATTN: Mr. Alvin Kaplan
Vice President
Nuclear Group

10 Center Road
Perry, OH 44081

Gentlemen:

Based on the June 21, 1988, telephone conversation between Mr. Dan Hulbert and Mr. Gary Shear of my staff, it is my understanding that July 14, 1988, was agreed upon as the date for our site visit to tour the emergency response facilities of the Perry Nuclear Power Plant.

Recent experience in the Federal Field Exercise identified the need for Region III to evaluate each licensee's emergency response facilities to determine if the NRC's Expanded Activation Site Team can be adequately accommodated. IE Information Notice No. 86-18 described the planned composition and location of the NRC Site Team that would respond to a major nuclear power plant accident.

Region III does not expect licensees to backfit to provide increased facility space. Facilities that have been constructed and approved under current regulations and guidance may not have the capability to accommodate the NRC Expanded Site Team as outlined in Information Notice 86-18.

Our goal is to consider with each licensee, ways of making more efficient use of available space, of providing adequate communications, and of identifying alternate space where relevant data could be made available in a timely, reliable manner.

Attached to this letter is an outline of the areas we will be reviewing. If there are questions regarding any of the above, please contact Gary Shear at (312) 790-5620.

Sincerely,
"Original signed by W. Snell"

W. D. Shafer, Chief
Emergency Preparedness and
Radiological Protection Branch

OUTLINE FOR EVALUATING LICENSEE ACCOMMODATIONS FOR NRC SITE TEAM

I. Communications

A. Telephone Capabilities

1. Number of Available Phones
2. Location of Available Phones
3. Type of Phone Service (e.g., voice activated)

B. Computer Compatibility

II. Size and Layout of TSC and EOF

- A. Space Availability for Expanded Site Team
- B. Seating and Desk Arrangements for Expanded Site Team
- C. Location of Key Counterpart Licensee Personnel
- D. Conferencing Space for NRC Personnel

III. Alternate Space
