Dear Mr. Bangart:

Recommended Project Manager for JCN E7044, Agreement State Program Assessment Assistance

Elaine A. Zeighami, the current manager at the Oak Ridge National Laboratory (ORNL) for the U.S. Nuclear Regulatory Commission (NRC) project JCN E7044, has elected to leave ORNL at the end of November. Accordingly, ORNL recommends that Po-Yung Lu become the project manager. He has experience with NRC projects and heads the Toxicology and Risk Analysis (TRA) Section of the Life Sciences Division. No change is proposed for the principal investigator, Gloria Caton, who is assigned to the TRA section.

In keeping with Part XI.(F) of NRC Management Directive/Handbook 11.7, this letter requests your concurrence in this change of key personnel. A copy of Dr. Lu's resume is attached. If you concur in this action, please sign the bottom of this letter and return it to my office.

Sincerely,

Claud E. Pugh, Director
