Dear Sir,

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

In regard to the proposed rule change for a
Five Percent license I would like to say I
am in favor of it. This seems to be that
much confusion will be cleared up for
requirements for low power testing.

As far as Seabrook station
goes, I believe it is in their best interest,
and our need for it's power, and other
Nuclear plants to have a workable solution.

Thank you
Robert Keizer
