Docket No. 50-029

Mr. George Papanic, Jr.
Senior Project Engineer - Licensing
Yankee Atomic Electric Company
1671 Worcester Road
Framingham, Massachusetts 01701

Dear Mr. Papanic:

The Commission has issued the enclosed Amendment No. 111 to Facility Operating License No. DPR-3 for the Yankee Nuclear Power Station (Yankee) in partial response to your application of January 5, 1988 and as supplemented March 11, 1988. Your application included four requested changes in the administrative controls for Yankee. This license amendment will deal only with one of the requests, as described below. The remaining three requests will be part of a future action.

The amendment removes the requirement for the Plant Operations Manager to maintain a Senior Reactor Operator's license from the Technical Specifications.

A copy of our related Safety Evaluation is also enclosed. A Notice of issuance will be included in the Commission's, next regular biweekly Federal Register notice.

Sincerely,

Morton B. Fairtile, Project Manager
Project Directorate I-3
Division of Reactor Projects I/II
