DEAR SIR:

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

AS A RESIDENT OF THE STATE OF NEW HAMPSHIRE I FEEL I HAVE A RESPONSIBILITY TO VOICE MY OPINIONS REGARDING THE NRC'S PROPOSED "INTERPRETIVE RULE."

I AM FULLY IN FAVOR OF ALLOWING SEABROOK STATION TO BEGIN 5% POWER TESTING WITH THE EMERGENCY PLANNING REQUIREMENTS THAT ARE PRESENTLY MET.

OUTSIDE THE FACT THAT SEABROOK STATION'S CONSTRUCTION RECORD IS OUTSTANDING AND THAT IT'S DESIGN FEATURES NUMEROUS BACKUP SAFETY SYSTEMS, A FULLY OPERATIONAL SIREN SYSTEM IS IN PLACE IN NEW HAMPSHIRE AND THE EMERGENCY BROADCAST SYSTEM IS ALSO AT SEABROOK'S DISPOSAL.

IN SUMMARY, I FEEL THAT ANY FURTHER DELAY IN 5% TESTING DUE TO EMERGENCY PLANNING REQUIREMENTS IS UNNECESSARY, WASTEFUL, AND DETRIMENTAL TO THE ECONOMIC FUTURE OF THE STATE OF NEW HAMPSHIRE.

SINCERELY,  
  
PAUL C. NELSON
