BRANCH

Rosa Brotherton
Town Farm Road
Barrington, NH 03825

Secretary of the Commission
Attn: Docketing and Service Branch
U.S. Nuclear Regulatory Commission
Washington D.C. 20555

To Whom it may concern:

The United States especially
the New England area depends on
imported oil for a major portion
of its electrical power.

I feel that as a citizen
living in the New England area I
should have a voice in the decision
of where that electrical power is
generated.

At present Seabrook Station
is complete and ready to generate
that much needed power.

I support doing whatever is
necessary to allow Seabrook Station
to generate electricity in the most
expedient manner possible.

Sincerely,
Rosa Brotherton
