

JUNE 22, 1988

DOCKETED  
USNR

(53 FR 16435)

DEAR SECRETARY OF THE COMMISSION :

'88 JUN 23 P6:46

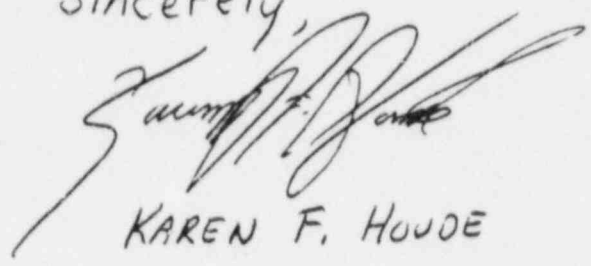

As an employee of Seabrook Station <sup>OFFICE OF THE SECRETARY OF ENERGY</sup> <sup>DOCKETS IN MY OFFICE</sup> <sup>BRANCH</sup> concern for the plant is well justified, As an individual living in New England my concern is for a safe, reliable energy source for the future.

A 5% license is a vital part for the future of this very needed energy source.

I am writing to give my support for the clarification of the Emergency Planning Requirements for Low Power Licensing, and I urge the commission to support this rule change.

Thank you for the opportunity to express my sentiments on this very important issue.

Sincerely,

  
KAREN F. HOUDE
