OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Secretary of the Commission
Attn: Docketing and Service Branch
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

SUBJECT: SEABROOK LICENSING

Dear Secretary of the Commission:

As a resident of New Hampshire (within the 10-mile radius), I am writing to urge you to allow 5% power testing at Seabrook Station. Nuclear power is a reliable source of power and New England needs this power.

I believe that evacuation of the plant can be done safely and in a timely manner. It is extremely unfortunate that we are allowing Massachusetts politicians to use Seabrook Station for their own personal gain.

We should be striving for energy independence instead of continuing to be dependent on foreign sources. It is embarrassing that this country is allowing this to happen.

Respectfully,

June Widger
