Gentlemen:

Pursuant Technical Specifications 5.6.1, attached is the River Bend Station Occupational Radiation Exposure Report covering plant activities performed during 1998. This report consists of a tabulation of occupational radiation exposure for personnel receiving exposures greater than 100 mrem per year, in addition to their associated man rem exposure according to work and job functions. This tabulation supplements the requirements of 10 CFR 20.2206 and is based on direct reading dosimeters.

Should you have any questions or require additional information, please contact Mr. David Lorring of my staff at (225) 381-4157.

Sincerely,

David N. Lorring for R. J. King
