DOCKETING & SERVICE  
BRANCH

**Secretary of the Commission  
Attn: Docketing and Service Branch  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555**

Dear Sirs;

Please proceed expeditiously to adopt the proposed clarification of emergency planning requirements for low power licenses to allow Seabrook Station to perform 5% testing.

Nuclear power is safe, clean, and reduces dependency on foreign sources of energy. I believe it is in the national interest to license Seabrook Station as soon as possible.

Sincerely,

JOHN P. PRANTIS
