Dear Secretary;

as a Health Physicist certified by the American Board of Health Physics, and, as a local resident to the Seabrook, NH area, I am very concerned about your proposed low power rule change. I feel that this rule change is in the best interest of New England and the US population since the Health Risk of any other electrical generation is greater.

We need Seabrook Station, ~~and~~ as does the rest of this county.

Please support this rule change.

Sincerely,  
Eric J. Darois
