Subject: Seabrook Licensing

Dear Secretary of the Commission

I am writing to urge the NRC to do the following for the Seabrook Nuclear Plant:

1. Interpret rule to allow 5% license without need for sirens.
2. Expedite the licensing both 5% and 100%. New England is about to become electrically stagnant.

Take a lesson from the French - make nuclear power the energy source of the future.

Respectfully yours,

J. Robert Gilbert
