Washington, D.C. 20555

Subject: Seabrook Licensing

Dear Secretary of the Commission:

I have worked at Seabrook Station for seven years. During the construction phase I have seen many delays. Finally, the plant was completed in June of 86, but I am still seeing delays. I can no longer understand how these "Political" delays can keep blocking the operation of this plant when New England needs the power. I realize that the state of Massachusetts does not want the plant to operate no matter what the joint owners of Seabrook do. Concrete decisions will have to be quickly made concerning the licensing of Seabrook Station.

I strongly urge the NRC to address this situation.

Sincerely,
Timothy L. Rano
