Dear Mr. Salsbury:

As discussed in a letter dated June 11, 2020, (Agencywide Document Access and Management System Accession No. ML20160A425), the Nuclear Regulatory Commission (NRC) planned to perform an inspection of Ametek Solidstate Controls (Ametek) to review the implementation of Ametek's quality assurance program in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) Part 50, Appendix B and 10 CFR Part 21. The letter discussed a preliminary schedule for the inspection. The NRC inspection team planned to arrive at your facility in Columbus, Ohio on Monday, July 27, 2020, and conduct the inspection through Friday, July 31, 2020. Due to the ongoing pandemic associated with the Corona virus, the NRC has decided to postpone the inspection at this time. The NRC will contact you in the future to reschedule this inspection.
