Subject: NRC Requests for Additional Information

Dear Sir:

In discussions with our Bethesda Licensing Office various members
of your Staff requested additional information/clarifications concerning
a few items. In response to these questions, enclosed please find the
following attachments:

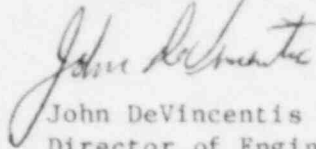

- 1) Further information regarding Seabrook's Revetment Surveillance
Program to that previously submitted by PSNH Letter (SBN-971),
dated March 18, 1986.
- 2) Revised excerpt of FSAR Section 1.8 (p. 1.8-3), regarding our
commitment to Regulatory Guide 1.8 (Rev. 1-R, 9/75; reissued
5/77).
- 3) Revised FSAR Table 3.2-2 pages, regarding seismic and safety
classifications for fluid systems and components.
- 4) Revised pages to the Seabrook Cable Tray Support Qualification
Program Report which was previously submitted by PSNH Letter
(SBN-989), dated April 3, 1986.
- 5) Revised FSAR Table 14.2-1 (Sheet 3 of 3), Identifying Station
Manager Procedure Approval Authority.
- 6) Further information regarding the Seabrook Station ISEG Organ-
ization.

We trust that the enclosed provides the additional information/clarifications requested by the Staff and request that the acceptability of the enclosed, where applicable, be reflected in the upcoming supplement to Seabrook's SER.

Very truly yours,

John DeVincentis
Director of Engineering
