Docket No. 50-423

B16907

Re: 10CFR50.90

U.S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, D.C. 20555

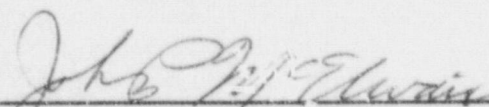

Millstone Nuclear Power Station Unit No. 3
Proposed Revision to Technical Specification
Containment Systems (PTSCR 3-34-97)
Corrected Brises Section Pages 3/4 6-2 and B 3/4 6-1

Pursuant to 10CFR50.90, Northeast Nuclear Energy Company (NNECO), in a letter dated October 7, 1997, proposed to amend Operating License NPF-49 by incorporating revisions into the Millstone Unit No. 3 Technical Specifications. Contained within Attachment 3 to the letter were retyped Technical Specification pages which incorporated the proposed revision. However, the retyped pages 3/4 6-2 and B 3/4 6-1 did not accurately reflect the proposed revision. Therefore, NNECO requests that the NRC Staff replace the retyped Technical Specification pages 3/4 6-2 and B 3/4 6-1 contained in our October 7, 1997 letter with the replacement pages contained within this letter.

NNECO apologizes for any inconvenience this error has caused the NRC Staff and should you have any questions regarding this submittal, please contact Mr. D. A. Smith at (860) 437-5840.

Very truly yours,

NORTHEAST NUCLEAR COMPANY

John P. McElwain
Vice President (Acting) - Millstone Unit No. 3
