Set forth below is a single antitrust license condition which the undersigned hereby agree will be attached to the Construction Permit and Operating License of the Allens Creek Nuclear Generating Station, Unit No. 1.

Such conditions shall become effective on the earlier of (i) the date on which such conditions become effective with respect to an operating license for the South Texas Project or (ii) the date (plus a reasonable time for implementation of such conditions) on which the opportunity for appellate review of a decision of the NRC or an subsidiary tribunal lapses.
