Material Licensing Branch
Division of Fuel Cycle and
Material Safety
Washington, D.C. 20555

Gentlemen:

Attached is our renewal application for a Material License 30-19-887-01 which expires on November 30, 1986.

We would again like to request a waiver on the 6 month leak test and substitute an annual leak test. We understand this is granted under certain conditions for the Campbell Pacific Nuclear Gauges (MC-2).

For any necessary clarification or information, please contact our Radiation Safety Officer, David F. Boehler, at our office address or by telephone (505) 622-9042.

Sincerely,

Francis R. Cherry, Jr.
District Manager
