Jack R. Roeder, Chief  
Materials Inspection & Enforcement Branch  
Division of Compliance

LICENSE EXPIRATION, VITRO CORPORATION OF AMERICA, SALT LAKE CITY, UTAH,  
DOCKET 40-2051

This is to advise you that AEC Source Material License No. SUA-814 is scheduled to expire May 31, 1968. The subject license authorized Vitro to mill uranium ore at its Salt Lake City facility. To my knowledge, however, Vitro has not processed any uranium ore since early 1964. By letter dated March 12, 1968, copy attached, I informed Vitro of the appropriate licensing aspects in this case. We have not, as yet, received a reply to our March 12 letter. I suggest that you check into the matter of whether or not Vitro has source material in its possession which is subject to licensing. Of particular concern is the contamination status of the mill.

I would be happy to discuss this with you.

Donald A. Nussbaumer, Chief  
Source & Special Nuclear Materials Branch  
Division of Materials Licensing

DML:DFH

*No action necessary at this time.  
Don Nussbaumer advised on the date that  
the license has been renewed until July 31, 1968.*
