Dear Mr. Vaughan:

On behalf of George Bidinger and myself, I wish to express our appreciation for the efforts of you and your colleagues in providing information on your equipment and procedures for the safe handling of uranium hexafluoride. As we develop further guidance for the regulation of uranium enrichment facilities, I'm sure this background information will be helpful.

If you are interested, I will be pleased to send you copies of the additional guidance as it is developed. Any comments you may have on our Advance Notice of Proposed Rulemaking on uranium enrichment will also be helpful.

Sincerely,
