Re: Source Material License SUA-56

Dear Mr. Rouse:

This letter is in confirmation of your telephone conversation March 20, 1974, with B. R. Tuveson, Safety Director, regarding an amendment of our Split Rock Mill License SUA-56 to include the Rox Mine Site ion exchange facility License SUA-1034.

This facility has not been in operation since February, 1972, but we may wish to activate it at some future date and therefore do not wish to abandon its licensing.

Enclosed are quadruplicate copies of the application for amendment as well as the invoice #L-4587-74.

Very truly yours,

M. D. Vincelette

General Manager, Operations
