SUBJECT: RECOMMENDATIONS FROM THE SAFETY AUDIT OF THE SERVICE WATER
RESERVOIR (SWR) DAM, NORTH ANNA POWER STATION, UNITS 1 AND 2

Dear Mr. O'Hanlon:

On February 12, 1997, an inspection of the Category 1 SWR Dam at the North Anna Power Station was conducted and the inspection report was forwarded to Virginia Electric and Power Company (VEPCO) on November 13, 1997. On November 25, 1997, the NRC Project Manager was informed that certain findings in the report may be incorrect. It was agreed that a meeting between VEPCO, the NRC and Federal Energy Regulation Commission should be held to discuss the findings and applicable action dates. This meeting is tentatively scheduled for early January 1998. In view of this, the corrective action dates currently in the inspection report are held in abeyance.

We will advise you of the exact date of the meeting as soon as it is finalized.

If you have any questions, please call N. Kalyanam at (301) 415-1480.

Sincerely,

(Original Signed By)

N. Kalyanam, Project Manager
