MEMORANDUM FOR: Richard H. Vollmer, Director
Division of Engineering

FROM: Daniel R. Muller, Assistant Director
for Environmental Technology
Division of Engineering

SUBJECT: PROGRESS REPORT ON EXPEDITED ENVIRONMENTAL
REVIEW OF SKAGIT/HANFORD SITE

On July 23, 1980 during the meeting between Harold Denton and Puget Sound Power and Light Company regarding its desire to relocate the plant to a new site on Hanford Reservation, it was agreed that because of an advanced stage of the safety review of the plant an expedited environmental review of the site was warranted. Mr. Denton instructed me to take the lead and prepare to conduct this expedited review in a creative and innovative fashion.

To that end I have: (1) made plans (with the cooperation of the applicant) to utilize to the extent possible the information and site data which was previously submitted and reviewed by us in the process of licensing 3 WPPSS plants located on Hanford Reservation; (2) assigned Jan Norris, who within the last 8 years served as an EPM on all 5 WPPSS plants, to manage this special review; (3) with cooperation of State Programs initiated agreements with the State of Washington to facilitate and to expedite the environmental review and hearing process; (4) held a number of meetings with the State of Washington agencies, Regional Office of EPA, and Regional Office of BPA making plans for the upcoming review, and provided guidance to the applicant in preparation of the amendment to the ER.

We have just learned that Subagreement 1, between State of Washington Energy Facility Site Evaluation Council (EFSEC) and NRC, which Harold Denton signed on July 28, 1981, was signed by Nicholas D. Lewis, Chairman of Washington EFSEC, on Friday, July 31, 1981. Accordingly, as the first step of implementation of this Subagreement I have designated Jan Norris to represent NRC on the Management Committee created by Paragraph 1 of Subagreement 1 (Enclosure). In implementing his assignment he will: (a) establish (in
