Mrs. Joy Marshall  
U.S. Nuclear Regulatory Commission  
Region IV  
611 Ryan Plaza Drive, Suite 1000  
Arlington, TX 76011

Dear Mrs. Marshall:

Thank you for the telephone call of October 9, 1987 in reference to application for renewal of License Number 49-17605-2, Control #461404.

After internal discussions, we have decided to allow the NRC license to lapse and continue to operate under the New Mexico license which is current. We will not license this unit in Colorado.

We appreciate the opportunity to have worked with your office in the past.

Sincerely,

*M. W. Dix, Jr.*
