SUBJECT: WNP-3 ENVIRONMENTAL REVIEW SCHEDULE

The WNP-3 ER (OL) was docketed on August 27, 1982 and distribution has
been made. The formal schedule for the licensing review is now being
developed. Pending final approval, the schedule includes an environmental
site visit in December, 1982 (specific dates to be determined after consulta-
tion with cognizant reviewers).

The plan for the environmental review provides for questions to be developed
by the NRR staff and forwarded to the applicant in sufficient time for the
applicant to have answers ready to present to the staff during the site
visit. To support this plan, you are requested to forward your Requests
for Additional Information to Division of Licensing not later than
October 23, 1982. This should provide the applicant with enough time to
prepare responses for the site visit, and provide the staff with an
opportunity to consider applicant responses to questions that were developed
during the acceptance review.

Questions regarding this matter should be directed to Duke Wheeler, X27792.
