U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sirs:

My wife & I support your proposed "Clarification of emergency planning requirements for low-power licenses". This is a sensible rule. New England needs all the power it can generate. Seabrook is built & ready to begin to add a critical boost to the area's reliable power supply.

It is incredible that this project has been so fouled up by top ranking officials of our government.

Yours truly
Richard Mark
