

DOCKET NUMBER
PROPOSED RULE PR 50
(53 FR 16435)

199

MR + MRS. F. KUKRAL

'88 JUN -6 09:20

1145-52 DEPT. OF ENERGY
DOCKET # 50-53
SAN-MARCOSS, CALIF.

SEC. OF THE COMMISSION 92069
ATTN: DOCKETING + SERVICE BRANCH
U.S. NUC. REGULATORY COMMISSION
WASHINGTON D.C. 20555

Dear Sir,

I approve the rule that ^{SIRENS} NEED - NOT BE
in place when LOW-POWER tests are
done. Low-Power testing poses no
threat to the ~~the~~ public outside the plant,
therefore sirens are unnecessary.

Please follow-through on your intentions,
which are 100% correct, A GREAT THING -
for mankind + we couldn't find a
better team to run SEABROOK. EAST-
UTIL. RECORD SPEAKS FOR ITSELF.
~~THE~~ ALSO NUC. PWR. IS THE CHEAPEST,
CLEANEST + BEST WHEN RUN BY A -
RELIABLE CO LIKE EASTERN UTIL. THEY
SHOULD NOT BE JUDGED IN THE SAME -
LIGHT WITH NUC. PLANTS THAT RUN -
THINGS BADLY.

Thank you KINDLY
Mr. + Mrs. F. Kukral
