DOCKET NUMBER
PROPOSED RULE PR 50
(53 FR 16435)
MRS. MILDRED WREGE
33 OAKRIDGE DRIVE
OLD LYME, CT. 06371

June 1, 1988

U.S.N. R. Comm.
Washington, D.C.

Dear Sir:

I do hope this new rule
clarifying the requirements
that must be met for low-power
testing will be put into
effect. We've had many hard
to excuse problems with the
nuclear plants built, but
I do think we need to get on
with at least operating the
ones we've built. Safely! I
approve the rule.

Sincerely,

— Mildred Wrege
