DOCKET NUMBER  
PROPOSED RULE PR 50  
(53 FR 16435)

30 Crestwood Lane  
Concord, N.H. 03301  
DOCKETING & SERVICE  
BRANCH

June 2, 1988

Secretary of the Commission  
U.S. Nuclear Regulatory Comm.

Dear Sir,

I wish to add my full support to the NRC proposed classification of emergency planning requirements for low-power licenses.

New England needs all the power it can generate. Seabrook is built and ready to add reliable power supply.

Too many uninformed people, including certain Massachusetts officials, are comparing Seabrook to Chernobyl, and are determined to block its opening — even

DS10

to removing sirens that could  
save lives in the unlikely  
event of a disaster.

As you know, many deaths  
can be attributed to the use  
of coal but more to nuclear  
power.

I approve your rule propos-  
al and applaud your inter-  
ests.

Sincerely,

Lois L. Calkin, D.C.
