OCT 5 1985

MEMORANDUM FOR: H. L. Thompson, Jr., Director, Division of Licensing,
NRR

FROM: Charles E. Norelius, Director, Division of Reactor
Projects, Region III

SUBJECT: RECOMMENDATION FOR NOTIFICATION OF LICENSING BOARD
MIDLAND SETTLEMENT

In accordance with present NRC procedures regarding Board Notifications, the following information is being provided as constituting new information relevant and material to the Midland OM/OL proceedings.

The licensee notified the NRC on September 17, 1985 that at the freeze-wall crossings, (monitoring pits 1, 2, 3, and 4), utility movement was more than anticipated during freeze-wall thawing. Preliminary survey data indicates that utility settlement exceeded freeze-wall heave in some cases.

Due to the discontinuation of construction at Midland, the licensee does not intend to pursue this issue until the project is reactivated.

If you have any questions or desire further information regarding this matter, please call Ross Landsman of my staff (FTS 388-5587).

RFW

Charles E. Norelius, Director
Division of Reactor Projects
