Attention: Dr. C. C. Carroll, Chairman  
Institutional Isotope Committee

Gentlemen:

Thank you for your letter of April 13, 1960, supplying the information requested in our letter of March 22, 1960. These matters will be reviewed with you during the next inspection of your facilities.

In addition to the routine semiannual bio-assays which you have scheduled for persons working with Cesium 137, Strontium 90 and Polonium 210, your procedures should provide for immediate bio-assays whenever it is suspected that persons may have accumulated a body burden of any radioactive material.

Very truly yours,
