Dear Mr. Delaney:

Under date of December 22, 1958, we furnished to your office a letter concerning our compliance with A.E.C. regulations on "Standard for Protection Against Radiation." This information was furnished in connection with the renewal of our Source Material License No. R-157 for a period of one year from February 28, 1959.

At this writing we have not had a reply to this matter and since the expiration date of our existing license is drawing near, we would like to have some word from your office on the status of the renewal.

Yours very truly,

KERR-McGEE OIL INDUSTRIES, INC.
