Jim:

I gave the letter to Ray Glinski and he had no comments. My only question concerns the last sentence at the end of the paragraph, top of page two (As new property owners are identified, these will also have to be addressed by CFM.)

Will there be a cut off date for residential and commercial property owners to identify themselves?

I think there should be, just as there can be a cut off date for inclusion in a class action suit. Otherwise this becomes an open ended situation in which there are no real health or safety issues.

John
