Dear Mr. Kennedy:

At our last meeting you requested a copy of the water quality data that we have collected as a result of our split sampling program at the Homestake Mill. Currently, we are entering all of the Homestake data on the EPA computer using the program, STORET. However, to complete this task, we need the latitude and longitude for the wells included on the attached list. If you could please identify the location of these wells, we would greatly appreciate your efforts. When our data entry is complete, we will forward to you a copy of the STORET output.

Sincerely,

Kent Bostick
