Docket Nos. 50-460/513

Note to J. Kastner, Chief, Radiological Assessment Branch, TR

LIQUID AND GASEOUS SOURCE TERMS FOR WASHINGTON NUCLEAR PROJECT, UNITS 1 & 4

Enclosed are the liquid and gaseous source terms for the Washington Nuclear Project, Units 1 and 4. The source terms were calculated using the models and parameters described in Regulatory Guide 1.8B, dated September, 1975.

Questions concerning the source terms should be addressed to Phil Stoddart, cognizant engineer assigned to this facility.

John T. Collins, Chief
Effluent Treatment Systems Branch
Division of Technical Review

Enclosure: As stated

cc: W. Burke
P. Stoddart
