Mr. Russell Rhoades
Division Director
Environmental Improvement Agency
Santa Fe, New Mexico

Dear Mr. Rhoades:

United Nuclear-Homestake Partners' personnel, and its consultant, Mr. Smith, gave a verbal report to the Environmental Improvement Agency on the tailings pond spillage that occurred at its uranium processing plant on February 5, 1977.

A preliminary written report will be submitted to your agency as rapidly as possible but not later than February 22, 1977.

This will be followed up by a more definitive study, which it might reasonably be anticipated would be completed in about 90 days from today.

Sincerely yours,

UNITED NUCLEAR-HOMESTAKE PARTNERS
