

ENCLOSURE 1

NOTICE OF VIOLATION

Entergy Operations, Inc.
Arkansas Nuclear One

Docket No.: 50-313
License No.: DPR-51

During an NRC inspection conducted on July 20 through August 30, 1997, one violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," NUREG-1600, the violation is listed below:

- A. Unit 1 Technical Specification 6.8.1.a requires that written procedures shall be established, implemented, and maintained covering modifications. Procedure 1000.028, Revision 19, "Control of Temporary Alterations," controlled the documentation, evaluation, review, approval, installation, and removal of temporary alterations package to permanently installed structures, systems, and components. Procedure 1000.028, Step 6.13.2.A, requires that all requirements and special instructions for installation in the Temporary Alteration Package are met. Temporary Alteration Package 97-1-001 required periodic (90 ± 30 days) system engineering inspection.

Contrary to the above, system engineering did not perform periodic inspections (90 ± 30 days) required by Temporary Alteration Package 97-1-001 from February 18 through August 13, 1997, a period of 176 days.

This is a Severity Level IV violation (Supplement I) (50-313/9705-01).

Pursuant to the provisions of 10 CFR 2.201, Entergy Operations, Inc. is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011, and a copy to the NRC Resident Inspector at the subject facility, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it

necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.
