GAP requests that fees be waived, because "finding the information can be considered as primarily benefitting the general public," 5 U.S.C. 552(a)(4)(a). GAP is a non-profit, non-partisan public interest organization concerned with honest and open government. Through public outreach, the Project promotes whistleblowers as agents of government accountability. Through its Environmental Whistleblower Clinic, GAP offers assistance to local public interest and citizens groups seeking to ensure the health and safety of their communities. The Environmental Whistleblower Clinic is currently assisting several citizens groups, local governments and intervenors in Texas concerning the construction of the Comanche Peak nuclear power plant.

We are requesting the above information as part of an ongoing monitoring project on the adequacy of Region IV and the NRC's efforts to protect public safety and health at nuclear power plants.

For any documents or portions that you deny due to a specific FOIA exemption, please provide an index itemizing and describing the documents or portions of documents withheld. The index should provide a detailed justification of your grounds for claiming each exemption, explaining why each exemption is relevant to the document or portion of the document withheld. This index is required under Vaughn v. Rosen (I), 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1974).

We look forward to your response to this request within ten working days.

Sincerely,
