B. J. Rock, Enforcement Branch  
Division of Licensing and Regulation

HUMBOLDT BAY REACTOR  
PACIFIC GAS & ELECTRIC COMPANY  
EUREKA, CALIFORNIA  
DOCKET NO. 50-133

The report of the inspection visit made on March 28 and 30, 1962, was reviewed with R. H. Wilcox, R&PRSB, on May 31, 1962. The purpose of the visit to the General Electric Company, APED, San Jose, California, was to review the quality control program in effect for the fabrication of the Humboldt control rod drives. No enforcement action is appropriate.
